

The only Identity Theft Protection Plan that **starts where ID THEFT begins** ...on your device

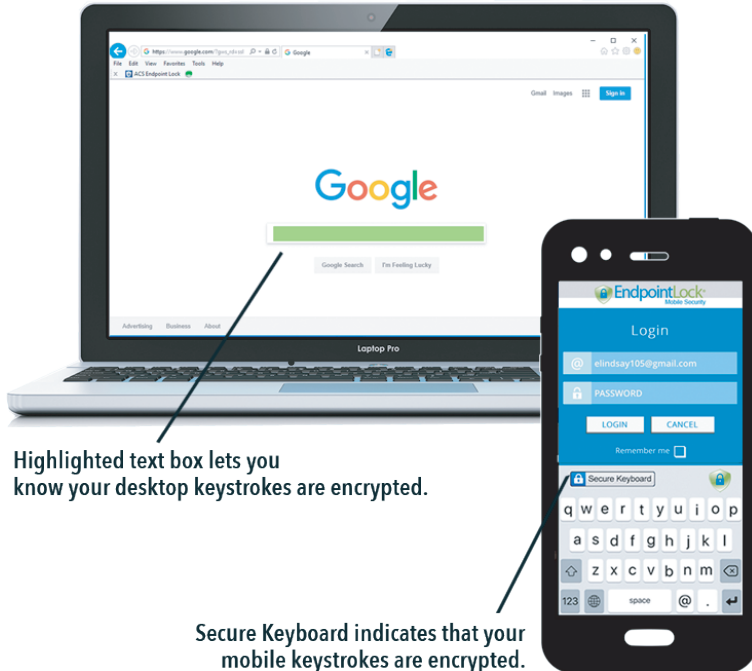

Cybercriminals are targeting your PC and mobile keystrokes to steal your private information

Identity theft often begins on your device. It happens when keylogging spyware is unknowingly downloaded after clicking on infected links inside an email, text message or web page. This practice of tricking unsuspecting victims into clicking on links that look legitimate is called phishing. According to recent reports, phishing was found in 90% of breaches and 95% of phishing attempts that led to a breach, were followed by software installation, including keyloggers.

Your Secret Weapon against ID Theft: Protect Your Keystrokes

CyberIDLock is a unique Identity Theft Protection Plan which includes Keystroke Encryption software to protect your keystrokes and help stop ID theft in its earliest stages. Our patented software will encrypt your keystrokes and help keep everything you type private and secure. Hackers can't steal what they can't see! This encryption technology is so effective against cybercrime, it's the method chosen by top financial institutions and the U.S. Air Force.

Highlighted text box lets you know your desktop keystrokes are encrypted.

Secure Keyboard indicates that your mobile keystrokes are encrypted.

Safeguards your personal identifiable information:

-  ONLINE BILL PAY
-  CREDIT CARD INFORMATION
-  ONLINE BANKING
-  PERSONAL INFO ONLINE FORMS
-  EMAIL & WORD PROCESSING

PLUS CyberIDLock also comes with all of the tools you need to **monitor your identity and credit** along with white glove services such as **Fully Managed Recovery** and **\$1,000,000 Personal Identity Theft Coverage** to help restore your credit and provide financial relief if you ever become a victim (see back for details)

EndpointLock Keystroke Encryption.

Stops ID theft on your PC and mobile device where it often begins. This easy-to-install software blocks keystroke stealing spyware installed on your device and protects your private information from being stolen.

Dark Web Monitoring

An intelligent and proactive identity theft detection solution that searches for compromised information across the deep, dark and surface web, as well as underground forums and file sharing sources. Helps you stay ahead of

Identity Monitoring • Credit Monitoring • Score Tracker

Our Identity Monitoring reports on changes to your personal information including name, address, SSN and phone number. Our Credit Monitoring solution keeps you informed of changes to your credit file and our Score Tracker tracks your credit score.

Fully Managed Recovery and 24/7/365 access to Identity Care Account

If you ever become a victim of identity theft, your dedicated recovery advocate will work on your behalf to perform all of the tasks necessary to restore your identity, through the use of a limited power of attorney. You receive assistance regardless of the type of identity fraud that has been perpetrated against you including but not limited to medical, financial, and criminal, as well as acts of terrorism.
